### Technical Details

Centre Verge is useful to make dividers to control the traffic in emergency situations.

Moulded in ABS - PC alloy, U.V. Stabilized material and special design with extra ribs on the back side gives more strength to it.

Instant fixing and portability makes it suitable and handy to control traffic on temporary bases.

To mount highly flexible and reflective spring post made out of virgin (Poly-Urethane) which is not only visible during day time due to its fluorescent orange colour/neon green colour bit in night time also at three bands of flexible, highly reflective tape of size 75 mm as pasted on it, built in space makes it more useful.

Yellow & Black combination

Size : Length 750 mm & Width 250 mm weight 2250 Grams

Hook on Top with PVC Chain

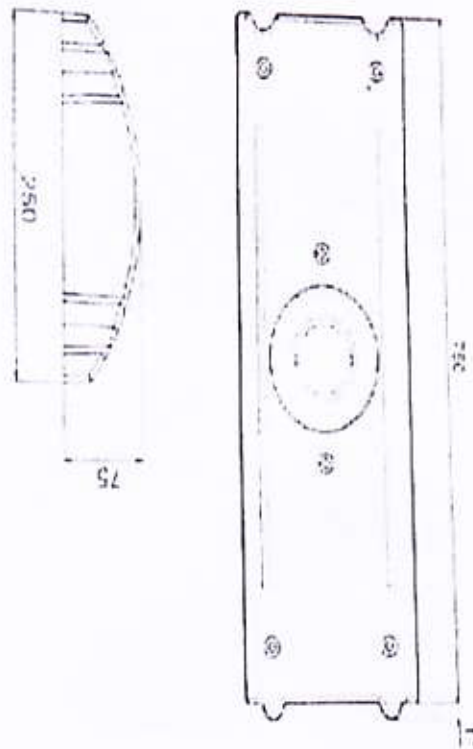

Size of the Ultra Flex post is 800 mm approx.

Tolerance :  $\pm 5\%$  is permissible

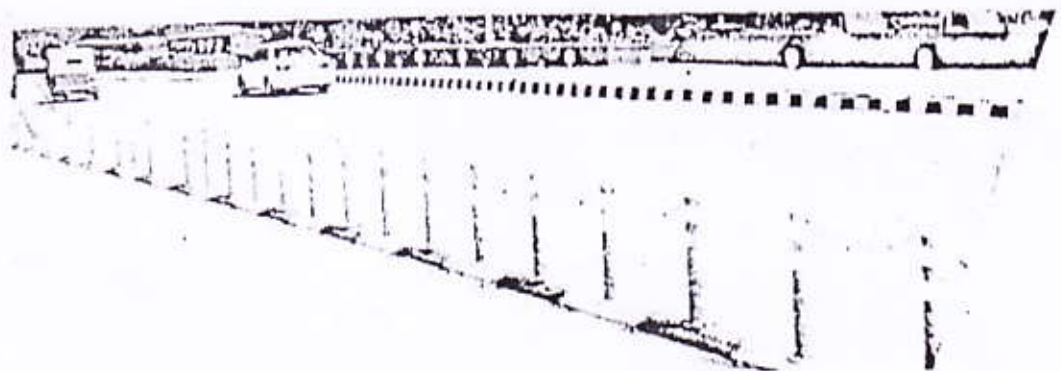

Pin Insert : An easy method to insert and remove the post from base as a when required. The post is fitted with a new technology as it is fitted to the body of the kerb by locking an Aluminium pin which forms a pivot. The Whole body is grouted to the road by means of 6 anchor bolts.
